

6 Manzana Banana Farm with Irrigation 13 km Outside Rivas

\$150,000.00

Features

For Sale
Rivas
Land

This 6 manzana banana farm is located along the Pan-American Highway, just 13 km from the center of Rivas. The entire property is planted with bananas. As is known nationally, Rivas is a banana zone, and the fruits are exported to different parts of the country. The farm is connected to electricity directly from the main road. Water channels border all the planted areas, creating a great irrigation system. The water is obtained directly from Lake Nicaragua via a water pumping company. This is an on demand service that can be requested on the days it is needed. All banana farms in the area use the same service. Conta
