

Three Phase 13 Manzana Banana Farm Between Rivas and Tola

13 manzana banana farm located in Tola, just 20 minutes from Playa Gigante. The farm is completely planted with bananas that are exported throughout Nicaragua. The planting is divided into 3 phases, initial, intermediate, and full grown plants, which allows harvesting every 4 months, maximizing the profitability. 2 industrial wells and 2 water basins provide sufficient water for irrigation of the plants. The soil on this 13 manzana banana farm is excellent quality, and would be good for growing other fruit such as mangos, papayas or citrus. Additionally it could host fields for livestock. This is a property full of pote

\$220,000.00
